PROFESSIONAL SUMMARY

QA Engineer with **4+ years** of experience testing web and mobile applications across SaaS, healthcare, and real-time systems. Skilled in functional, regression, exploratory, and API testing, with hands-on experience in Playwright automation, Postman, and PostgreSQL validation. Completed **1900+ hours** on **Upwork** delivering quality assurance solutions for international clients. Strong background in test design, defect management, and Agile software development practices.

EXPERIENCE

QA Tester | OXOS Medical Platform | Krakow, Poland | Jun 2025 – Present

- Designed and executed functional, regression, and exploratory tests for web and mobile applications
- Created and maintained test cases, test plans, and testing documentation based on business requirements
- Performed REST API testing using Postman and validated backend data using PostgreSQL
- Identified, reported, and tracked defects in Jira, supporting developers during root cause analysis and verification
- Collaborated with Product Owners, Developers, and QA team members in an Agile/Scrum environment to ensure high-quality releases

Freelance QA Tester | Upwork | Remote (Poland) | Feb 2023 – Present (1900+ hours)

- Delivered QA services for SaaS, web, mobile, and transaction-based applications across multiple international clients
- Conducted functional, regression, exploratory, and end-to-end testing
- Designed test cases, test scenarios, and detailed bug reports aligned with client requirements
- Tested payment flows, API integrations, user journeys, and real-time features
- Collaborated with distributed teams and stakeholders throughout the software development lifecycle
